

Kosovo American Education Fund

Business Partnership Program

Help the economy of Kosovo — and your ability to compete in it.

The **Kosovo American Education Fund (KAEF)** is searching for business partners to help it achieve its goal of contributing to the economic development of Kosovo through education.

KAEF helps business in Kosovo over the long term by providing the country's future business leaders with top-notch training at elite U.S. universities. KAEF Fellows bring their substantial skill sets to existing Kosovar businesses, implementing international best practices, and making the Kosovo marketplace more efficient, competitive, and attractive to potential investors.

KAEF also offers its business partners the opportunity to:

- **Advertise among a key demographic** — the young, highly-motivated, educated individuals who visit www.kaef-online.org, and apply to the KAEF program
- **Demonstrate a devotion to the long-term success of Kosovo**
- **Recruit more qualified employees** through KAEF's network of alumni, fellows, and applicants

KAEF **values the support** of its business partners, and is committed to helping them to **achieve their individual goals**.

Together, we can provide individuals with the opportunity to make a meaningful contribution to the development of their society. In the end, there can be no greater benefit.

Circle of Friends

Members of KAEF's Circle of Friends are those organizations or individuals who, through a substantial gift to KAEF, demonstrate their leadership and make a lasting impact on Kosovo. Although KAEF Circle of Friends Members do not give principally in order to receive any sponsorship benefits, they receive all the same benefits as Partners. In addition, they are listed permanently on the website and in all KAEF recruitment materials and presentations. KAEF works tirelessly with its Circle of Friends Members to make sure they are satisfied with their contribution in a wide variety of ways. If you are interested in becoming a Circle of Friends Member, please contact us for details.

The KAEF Website

KAEF's website — www.kaef-online.org — attracts approximately 1,000 unique visitors from Kosovo each month.

Visitors are generally young, educated, and upwardly mobile individuals from all across Kosovo. There is no better place to reach this valuable demographic. Furthermore, by partnering with KAEF, you can show our website's visitors that your business is committed to Kosova.

The KAEF Brand

After only five years in Kosovo, the KAEF program is widely recognized by university students and graduates. More recently, KAEF has begun to gain recognition among other age groups, and in regions throughout the country.

Supporting KAEF shows that your business stands for educational opportunities, economic development, U.S.-Kosovo partnership, openness, integrity, and a long-term devotion to Kosovo.
